Fig. 3 is a schematic diagram of a mechanical assembly, likely a pump or motor, showing internal components and external connections. The assembly includes a main body (27) with internal chambers (O2, O3) and a central shaft (35) with a rotor (29). The rotor has vanes (37) and is connected to a drive mechanism (G2a, G2b) via a coupling (M). The drive mechanism includes a motor (P) and a gear (23). The assembly is mounted on a base (M2) and has various ports (31, 33a, 33b) and a control line (37a).
